

What's Up With Bill Mullen (5)

Five years of short ski trips to Park City convinced **Bill Mullen (5)** and wife **Carole (6)** to purchase their own piece of paradise. *"I put a down payment on a house in Prospector during a Christmas visit in December of 1988. We have celebrated Christmas in that house since 1989. My wife Carole & I moved here in July 1994 in the house in which we live in Hidden Cove."*

"Corning, then known as Corning Glass was my first job after graduating from Manhattan College in NY." After that Bill worked for four other Fortune 1000 companies over the years. Eventually, he was ready to get out of the corporate scene and move where he wanted to live as opposed to where a company wanted to move him.

Bill's Time Bomb

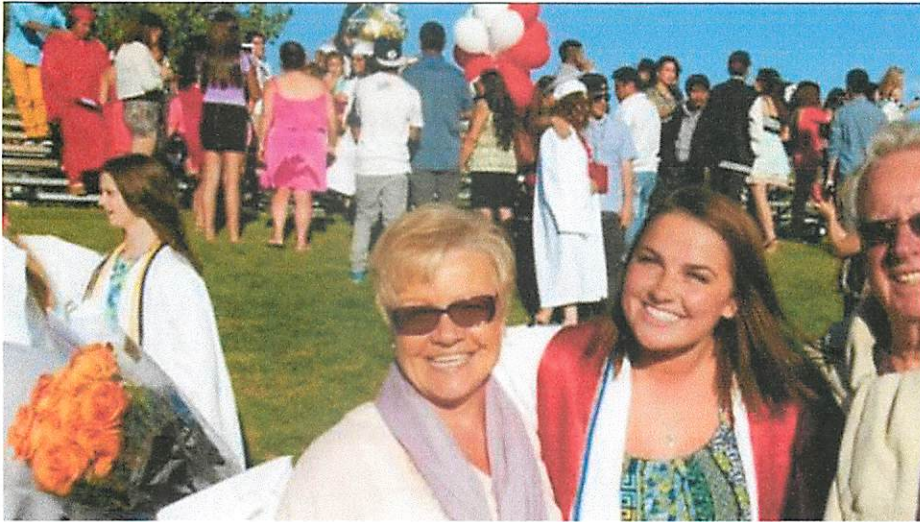

No stranger to a small-town scene, since there were only 24 in his high school graduating class, Park City seemed like a good match. *"Since 1995 I have managed my Financial Planning firm here in Park City."*

He has also written and published his first book; **The Tax Ticking Time Bomb; How to Recognize & Manage Tax Traps in Retirement.**

Over the years, Bill's research has shown that most people have saved for retirement using tax deferred accounts like IRAs & 401(k)s. *"In many cases, they do not consider that all the money in those accounts does not belong to them. A quarter to a third of the money will have to be used to pay taxes. Using tax deferred accounts is a good way save for retirement. It is not a good way to enter retirement with all your money in tax deferred accounts. Helping clients reposition assets as they approach retirement has been my focus since publishing that book."*

Bill had great help from three locals in getting the book written and published. *"Make that four when I include my wife Carole. Stacy Dymalski (she has since moved to LA) educated me on how to self-publish and she proof read the draft. I thought I was a grammarian before Stacy. I still use what I learned from her when I write now. Michelle Rayner did a great job on the graphics and Katie Mullaly (14) put it all together so that it could be published. Without those three, it would not have come together in 7 months."*

(Carole and Bill below with granddaughter Ashley Williams at PCHS graduation 2014)

Follow The Leaders

When Bill has leisure time, he and Carole play 'at' golf and just purchased two kayaks they intend to use this summer. The rest of Bill's local family include step-daughter Chrissy, her husband John and three grandkids; Ashley, Drew and Jimmy.

Being part of Leadership Park City was a great experience for Bill. *“Carole was in Leadership Class VI. I have told Ashley Williams, my granddaughter, who is manager of Mary Jane's on Main Street that she needs get her application in ASAP.”*

**Thanks, Bill for providing financial guidance and advice
and also helping us recruit future leaders.
We'll be watching for Ashley's application!**

**Bill's book can be purchased at Dolly's Bookstore, from Bill himself,
or on online <https://amzn.to/2gmafva>**
